

Anwa Tower - Gym

Dubai

Project

Standing as the first and tallest tower in Dubai Maritime City, the Anwa tower by Omniyat is set to be an attraction for many new homeowners and renters. Throughout its 44 floors, the tower contains 225 beautiful residential properties, each offering elegant views within the unique location of Maritime City. With dining, entertainment, and the gorgeous soundtrack of the sea only a step away from the property, the Anwa Tower is set to be the home to numerous residents of Dubai. With the busy lifestyle that the city promises, the tower block allows the residents and visitors to reduce their hectic schedules by providing access to a gym area with various equipment to assist people who are looking maintain their healthy habits.

Duphill were honored to apply our flexible and highly durable sports flooring, Pulastic®, made by our partners at Sika. Pulastic® is a seamless flooring system which allows the product to be applied directly to the substrate or previous floor system. At just 6-11mm thick, the product not only promises a brand-new, eye-catching aesthetic but the high strength of Pulastic® allows the surface to withstand heavy gym equipment and harsh impacts. Pulastic® 's flexibility also offers comfort when performing the sports activities, reducing injuries, and allowing the users to leave the gym with less aches that would come from regular, non-flexible flooring. Pulastic® sport floors are manufactured under ISO 9001, ISO 14001 for environmental care and ISO 26000 for corporate sustainability, making it a prime product for any areas subject to frequent audits.

With a team of craftsmen, all showing great passion to each project, any challenge or request is achievable. Our dedicated workforce applied the Pulastic within the gym area and we the flooring system will continue to withstand the gym equipment and heavy impacts of its daily use for years to come.

Year Installed: 2021

Area Applied: 145 m²

Client: Reem Capital Contracting LLC
