

Al Khoory Courtyard Hotel – Gym Area

Al Waha Street, Dubai

Project

Al Khoory Hospitality Division, founded in 2008 by the Al Khoory Group, has rapidly grown throughout the city of Dubai with their variety of properties, including hotels and apartments, all located in prime tourism and commercial locations of Dubai. The hotels that Al Khoory provide give the visitors an impeccable experience of hospitality for the guests to admire during their stay. Situated just off Sheikh Zayed Road is the upcoming Al Khoory Courtyard Hotel which is set to accommodate numerous guests with their 158 available rooms, perfect for anyone staying for both business and leisure. The hotel will contain various top of the range amenities for the pleasure of guests, including the new gym area which our team honourably supported during the construction stage.

Our prestigious workforce applied the seamless multi-purpose sports flooring system, Sika Pulastic® Classic 90, throughout the entire gym facility to compliment the design ideas of our client and to offer extreme durability and comfort benefits for the physically active members to utilise during their visit. The product offers an endless variety of colour options and due to the water-based finish, the VOC content within the gym area is virtually eliminated, making it the ideal flooring solution for enduring physical activities. The mechanical strength of Pulastic® Class 90 has allowed our client to reap the many benefits of the material without questioning the longevity of the flooring quality. When applied correctly by an experienced team of craftsmen, the product can guarantee maximum usage with a minimum life-cycle cost.

Our team continue to demonstrate their capabilities in applying Duphill's exclusive selection of flooring solutions whilst displaying a motivated and efficient approach to meet the deadlines and requirements of our client. With every individual of the team contributing to the success of the business, the synergy between our team members will continue to be exhibited through each project we deliver.
