

## VEEPEE Office JLT, Dubai

### Project

Vee Pee Trading LLC, located in the vibrant business hub of Dubai, is a dynamic and reputable trading company with a diverse portfolio. Renowned for its exceptional variety of products, Vee Pee Trading specializes in the sourcing and distributing high-quality electrical, tools, building and hardware materials across various industries. With an unwavering commitment to excellence, the company has earned a strong reputation for its reliability and customer-centric approach. Vee Pee Trading LLC's skilled team possesses a deep understanding of market trends and a keen eye for identifying emerging opportunities. This enables them to deliver tailored solutions that meet the unique needs of their clients. The overall success of the company has led to new offices being created throughout the UAE, including the new addition within Jumeirah Lake Towers (JLT).

Our trusty workforce was selected to support the creation of the Vee Pee JLT office and to turn their office space into an easy-to-maintain, seamless beauty. First off, **Decorkrete** was applied to the floors to offer a durable surface with an endless variety of finishes for our client to select, encouraging an easy specification process and reducing the duration for the overall application process. Decorkrete was applied onto our self-levelling system to ensure each surface is perfectly levelled to meet the standards of any prestigious office area. **Ghibli Textured Paint by Viero** was then applied to the walls. By using Ghibli textured paint, we were able to add depth and character to surfaces, creating captivating visual and tactile experiences for the entire office space.

The exceptional expertise and forward-thinking innovation of our team consistently astonish our clients, transforming ideas into tangible successes with finesse. Our endeavors are centered on ensuring client contentment, and we consistently exceed expectations by presenting a diverse range of material, color, and finish choices that seamlessly align with their creative visions. Every team member brings a distinctive contribution to a synergy that is unparalleled, resulting in extraordinary achievements that have the potential to redefine the design and construction industry's landscape.
