

Private Residential Garden & Pool Area Jumeirah 2, Dubai

Project

Jumeirah 2 is a vibrant coastal neighborhood located in Dubai. The area is renowned for its stunning beaches, luxurious villas, and excellent dining and retail options. The neighborhood boasts a variety of attractions, including the famous Jumeirah Beach Park and the Dubai Canal Boardwalk, offering stunning views of the city skyline. With its prime location and abundance of amenities, Jumeirah 2 is a popular residential and tourist destination in Dubai. Whether you are looking to enjoy a day at the beach, indulge in world-class dining, or simply soak up the vibrant atmosphere, Jumeirah 2 is the perfect destination. Our private client located in Jumeirah 2 was hit with the drawbacks of incorrectly specified paint and they wanted a solution which delivers a more eye-catching aesthetic whilst offering slip resistance for the pool and surrounding areas.

Rasico, a prominent microcement system in our catalog, stands out for its sleek and contemporary finish, complemented by its remarkable slip resistance and UV resistance features. This makes it an exceptional choice for a wide range of applications, both indoors and outdoors, including floors, walls, furniture, and planters. Rasico's slip-resistant properties ensure secure flooring in areas prone to water or liquid exposure, while its UV resistance safeguards against fading and discoloration, particularly crucial for properties situated in the Middle East. This niche Microcement solution proves to be an outstanding selection for both commercial and residential projects, offering a blend of safety and aesthetic advantages to enhance any space..

Duphill's dedicated workforce, backed by their wealth of experience and access to exclusive materials, played a pivotal role in assisting our client in achieving their desired finish while offering numerous additional advantages. The impeccable quality of our crafted finishes consistently leaves a lasting impression on our esteemed clientele, while our diverse range of systems ensures a hassle-free selection process for their renovation needs. Whether it's decorative, industrial, or hygienic finishes you require, our team delivers a reliable service that encompasses everything from the initial design stage to flawless execution.
